

MARINE SALES CAREER OPPORTUNITY

It's tough to put a finger on what draws us to the water season after season. The fresh air? The fishing and water sports? Relaxing in the comfort of your little slice of heaven? At DAKA, we're convinced that it's a combination of all these things and so much more.

Founded in 1977, DAKA began as a fabricator of structural steel and wood burning furnaces. With help from family and our dedicated employees, DAKA has combined this manufacturing expertise with the love for boating and fishing to produce a quality line of docks, lifts and accessories, available at marine dealers throughout the Midwest.

Our love for the water is only mirrored by our commitment to improving our products year after year. We hope our hard work adds to our lakeshore owners activities and fun! We'd be pleased if you would join our team and help us in ***Exceeding Our Customers' Expectations in Every Way!***
