

# PINE TECHNICAL & COMMUNITY COLLEGE

## Customized Training Solutions Division

### ABOUT CUSTOMIZED TRAINING SOLUTIONS

Pine Technical & Community College's Customized Training Solutions Division serves as the major regional provider of skill-based, short-term courses.

- Courses are conveniently offered during the day, evening, and on weekends.
- Courses are open-enrollment and cater to a foreseen need such as new technology.
- Many courses are designed to meet an occupational licensing or legal requirement.
- Since class sizes are smaller, students receive more individual attention and learn more.

### CUSTOMIZED FOR YOUR NEEDS

Our experienced staff, instructors, and consultants work in partnership with you to ensure every aspect of the training process is tailored to your exact requirements: from the development of custom-tailored curriculum to pre-course logistics planning and post-course evaluation. Classes may be customized to fit the specific needs of your organization. Expertise is available in the following core areas:

**Industrial Technology**

**Information Technology**

**Health Education, Wellness & Enrichment Courses**

**Management Education**

**Transportation & Safety**

**Workforce Development**

### Other Courses Available Through Customized Training Solutions:

Introduction to Welding  
Emergency Medical Technician  
*Initial, Refresher, and Skills*

Job Safety Training  
Nursing Assistant/Health Aide  
*Courses and Test-Outs*

## AWAIR Programs

### Program Benefits

- Culture that is committed to workplace safety & health
- Increase awareness at the work site
- Expose hazards at the work site
- Reduction & elimination of employee accidents & injuries
- Cultivate informed and alert workforce who take responsibility for their own and their coworkers safety
- Improve employee morale

**Pine Technical & Community College's Customized Training Solutions Division can assist you with the development and implementation of your AWAIR program. First select the appropriate OSHA 10 training and then add additional topics to fulfill your training needs.**

## OSHA 10 for General Industry or Construction

The OSHA 10 card proves to employers that you completed 10 hours of OSHA-authorized training on critical workplace safety topics. Individuals with this credential have industry-specific knowledge and skills that help prevent injuries and keep workplaces safe and productive.

PTCC's OSHA 10-hour training teaches basic safety and health information to workers in construction currently utilizing authorized OSHA trainer and CareerSafe online training.

It is part of the OSHA Outreach Training Program, which explains serious workplace hazards, workers' rights, employer responsibilities and how to file an OSHA complaint.

Unsure about which OSHA Card you need?

Ask your employer which card is required for your position and work responsibilities.

**Construction** - Designed for workers in the construction industry including excavation, cranes, material handlers, welders and waste disposal.

**General Industry** - Designed for workers in health care, factory operations, warehousing, manufacturing, storage and many more.

Your OSHA 10 card will never expire. Please note: Some employers, states, unknowns or local jurisdictions may require workers to retake the 10-hour course every few years.

OSHA 10 allows selection of elective and optional topics that can be customized to fit the needs of your industry.

### Additional AWAIR Topics

- Excavation & Trenching
- Defensive Driving
- Bobcat Certification
- Fall Protection
- Confined Space
- Power Tools/Pneumatics
- Struck by/Caught Between
- Fire Extinguisher Training
- CPR/AED & First Aid

PTCC's Customized Training Solutions Division specializes in customizing a program that is tailored to your industry. A customized program deepens employee engagement with hands-on training at our facility or yours.

Employers continually face new challenges and we are here to help you find the solutions!
